Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
ServiceNow Service Desk Agent	Manage Incident records	Fields may change by condition	Manual checks can cause inconsistency	Concerned about incomplete data

Completed Problem Statement Table:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A ServiceNow service desk agent.	Create and update Incident records accurately.	Fields may change based on incident conditions.	Manual checks can cause inconsistent form behavior.	Concerned about incomplete data and extra rework.
