Demonstration of Proposed Features

Date	03.10.2026
Team ID	SWTID-2026-5957
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution using ServiceNow client-side scripting and UI policies.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Dynamic Field Visibility (UI Policy)	Show or hide specific incident form fields dynamically based on the selected Category and Subcategory.	Implemented	Yes	Working as expected
2	Mandatory Field Validation	Enforce mandatory field requirements dynamically when priority or state changes on the incident record.	Implemented	Yes	Validated successfully
3	Client-Side Field Read-Only Rules	Make resolution notes and closed-by fields read-only based on user roles and incident state using Client Scripts.	Implemented	Yes	Tested across roles
4	Asynchronous Data Fetch (GlideAjax)	Retrieve caller location and department details asynchronously without reloading the incident form.	Implemented	Yes	Optimized response
5	Form Submission Alert / Validation	Trigger client-side alerts (onSubmit) to verify mandatory work notes before submitting incident resolution.	Implemented	Yes	Passed all test cases
6	Cross-Browser UI Consistency Test	Verify that all applied UI policies and client script behaviors render smoothly across multiple web browsers.	Implemented	Yes	Verified on Chrome & Edge

Feature Implementation Summary:

Total Features Proposed	**6**
Total Features Implemented	**6**
Total Features Demonstrated	**6**
Overall Implementation Rate (%)	**100%**
