Project Demo Planning

Date	03.10.2026
Team ID	SWTID-2026-5957
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member using ServiceNow developer instances and collaboration tools.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Present the overview of ITIL Incident Management challenges and the need for automated client-side validation.	2 mins	Team Lead
2	Solution Architecture & Setup	Briefly explain ServiceNow platform capabilities, Client Scripts, and UI Policy configurations.	2 mins	Developer 1
3	Dynamic Field Visibility Demo	Demonstrate UI Policies dynamically showing and hiding incident form fields based on category.	3 mins	Developer 2
4	Client Script Validation Demo	Showcase onSubmit and onChange Client Scripts enforcing mandatory notes and field read-only rules.	3 mins	Developer 1
5	GlideAjax & Form Interaction	Demonstrate asynchronous data fetching for caller location without reloading the form.	2 mins	Developer 2
6	Q&A and Conclusion	Address evaluator queries, summarize implementation benefits, and conclude presentation.	3 mins	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set up the context of incident management inefficiencies and introduce the project scope.
2	Solution Overview	Highlight how UI Policies and Client Scripts streamline form data entry and compliance.
3	Live Feature Demonstration	Perform live test cases on ServiceNow instance showing dynamic field visibility and validation alerts.
4	Q&A Session	Open the floor for evaluator feedback, technical questions, and discussion on script logic.
